

EWPC Meeting Date: 22.07.2024

Highways Issues Reports

See Highways Issue log.

Highways Maintenance Schedule

The [HCC list of major works for July 2024](#) is published on line. Examination shows there to be no anticipated major works currently planned for or near to the Parish.

Temporary repairs to potholes remain an issue throughout the parish, with some works being declared by HCC as being completed when as yet only having a white outline marking (e.g. Tile Barn Row) and others having received temporary repairs which are already breaking down. The resultant state of local roads remains atrocious but, beyond continued liaison with HCC via reporting systems and direct communication, there is little more that EWPC can do to improve the situation for our parishioners while the poor financial state reported by HCC shows little sign of improvement.

Highway Works Announced in next 3 months

A summary of listed permissions from HCC is shown below. More precise dates for individual locations may be found by opening the respective icons on the interactive map to be found at [one.network](#). Happily the recent spate of disruption caused by Gigaclear installation has now moved on from East Woodhay Parish and is predominantly now just affecting Highclere.

18 – 24 July 2024

Woolton Hill Road

Traffic Management

Southern Water – utility maintenance

19– 25 July 2024

Hollington Lane

Possible road closure

Southern Water – utility maintenance

23 July 2024; 09.30 – 15.30

Heath End Road (Ball Hill – East Woodhay) / Abbey Wells Road (East End – Heath End)

Road Closure – access only

7 Sept 2024; 09.30 – 15.30

Abbey Wells Road (Adj Lodge Entrance

Road Closure – access only. Diversion via Fullers Lane

OpenReach utility maintenance

11 Sept 2024; 09.30 – 15.30

Hilliers Farm Lane

Road Closure – access only. Diversion via Fullers Lane

OpenReach utility maintenance

Additional to the Highways Report Log the following provides reports recent activity.

Raised Sluice Valve at Church Road/ Abbey Wells Road Jct (Brownies Corner)

There has been no evident progress on this by Southern Water at time of this report, although specific follow-up has not been undertaken due to leave. Direct further enquiry will be pursued w/c 22.07.2024

GD to monitor

Vivid Grounds Maintenance

Vivid grounds maintenance staff have now fully resumed care of Vivid property associated land, including regular grass cutting and kerb weed management.

No further communication received in relation to need of attention to dilapidation of Copnor garages. This will be further pursued if nothing heard by month end.

Traffic Speed Exiting Ball Hill

Communication was received in June from a concerned parishioner regarding vehicle speeds whilst still within the restricted zone when exiting Ball Hill in the direction of Enborne Row. The EWPC SID is regularly placed in Ball Hill as part of its HCC approved rotation around the Parish; however, approval has not previously been sought for speed detection on the outbound length of road towards the Furze Bush Inn and beyond. Enquiry has now been raised with HCC to determine if this may be accommodated on an existing speed limit repeater pole.
