## MEASUREMENT OF RISK - The Metrics

<u>Likelihood of Occurrence</u>		<u>Severity of Impact</u>	
<u>Rating</u>		<u>Rating</u>	
1	Possible but improbable - very unlikely to occur	1	Very low or negligible impact
2	Some possibility of occurrence but rather unlikely	2	Low impact but could give rise to some undesirable consequences
3	Reasonable possibility of occurrence - as likely to happen as not	3	Medium impact - could have fairly significant financial and/or legal consequences
4	High probability of occurrence - more likely than not	4	High impact - would have significant financial and/or legal consequences
5	Very high probability of occurrence	5	Very high impact - would have very serious financial and /or legal consequences

<u>Gross Risk (sum of <i>Likelihood of Occurrence</i> and <i>Severity of Impact</i>)</u>	
2	Very low risk - generally no action required
3-4	Low risk - consideration to be given to implementing preventative measures and/or an action plan to manage consequences
5-6	Moderate risk - procedure must be in place to minimise, as far as possible, probability of occurrence and an action plan to manage consequences
7-8	High risk - procedure and action plan as for 5-6, with good awareness of the risk and consequences by all concerned parties. Regular reviews by Council Members
9-10	Very high risk - Robust procedure and action plan in place and subject to frequent review by Council Members. Actively pursue means of reducing risk
